

**IN THE SPECIFICATION**

On page 10, after the first paragraph, insert the following new paragraph.

Filters 130 may comprise a plurality of common ground conductive plates and at least two electrodes each having at least one conductive plate, each electrode's plate or plates being sandwiched between two common ground conductive plates. Examples of such filters are shown in application 08/841,940 and 09/008,769.
